

# *deliciously* **British experience**

iCandy is founded on the fundamental premise of offering parents the most beautiful strollers of unsurpassed quality and excellent design. With over 75 years family experience, we create timeless, elegant products in modern colours and contemporary designs using the highest quality fabrics created with great care; these are the features and characteristics that give each iCandy product its own identity and individuality. At iCandy we feel so passionate about our brand and the service to you, that we have chosen not to sell our products on-line.

With this in mind we have carefully selected a national network of retailers who we trust, to offer you the most personalised experience when selecting and purchasing your iCandy products.

Communicating with your baby from the very first day aids the development of good speech. Recent research from the National Literacy Trust shows that if your baby is facing you, you are twice as likely to talk together. That's why we are particularly pleased that all of our products can be parent-facing, giving you the ultimate flexibility.

iCandy

## peach

Get the hottest look with the iCandy peach multi-mode system. Modern sleek curves combine with stunning fabrics and simplistic styling. Available in three fabulous colours; sweet pea (shown here), black jack and tomato, the peach offers all the functionality you need, from compact one hand folding to being able to convert into a double mode of transport - this upgrade is done simply with the addition of a peach blossom converter. A great investment from the outset knowing you can grow your stroller with your growing family!

The modern carrycot offers the lie flat position and is removed simply with one hand so as not to disturb your sleeping baby. We have to boast about the ease with which this stroller folds - one simple smooth action allows the chassis to fold down, be picked up using the carrying strap and away you go, it really is that simple! All the original iCandy options of forward and rearward facing give you the ultimate versatile stroller and you will really fall in love when you feel how easy it is to manoeuvre... It's quite simply a peach!

British travel made *peachy*....

# peach blossom peach blossom twin

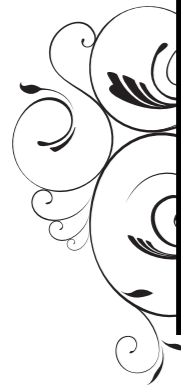

The iCandy peach blossom and peach blossom twin offer parents outstanding flexibility when it comes to a single/double mode of transport. With modern sleek curves, stunning fabrics and simplistic styling, this revolutionary new stroller caters for all. The iCandy peach blossom is for parents who have a toddler and a newborn and the iCandy peach blossom twin is designed to carry twins from newborn.

You can even take the option of upgrading your iCandy peach from a single mode to a double mode saving you the expense of an all new twin product. The peach blossom and the peach blossom twin can be used at any time in single stroller mode. All the features remain the same as the iCandy peach, from the easy one hand fold to the smooth manoeuvrability, the flexibility far outweighs most existing double modes.

*Blossoming* with your family...

## apple

The stylish iCandy apple multi-mode system is available as a four wheel stroller or as an all terrain three wheel jogger. If however you require the versatility and freedom of having both options, the jogger wheel can be purchased as an accessory to the stroller. For your newborn, the stroller and jogger have the option to add their own unique iCandy apple carrycots and to make life simpler just add an infant carrier car seat (sold separately) for the ultimate, stylish, complete travel solution.

Personalise your apple stroller by choosing from five delicious flavours; redcurrant, blackcurrant, imperial, grape and mandarin. The flavour pack comprises of an interchangeable hood and a luxurious fleece core seat snuggle. The clever concept of the flavour allows you to choose a colour to suit your mood or mix them all up for a completely different look! As your family grows the iCandy apple can be upgraded to the iCandy pear.

Which mode are *you* in today?™

## apple to pear *upgrade*

As your family grows the iCandy apple multi-mode system can be upgraded to the iCandy pear multi-mode system with the addition of the unique multi-functional pip converter upgrade pack. Larger front wheels balance the additional weight, and the pip allows you to create many different combinations for either twins from newborn or a newborn and older child.

Your newborn can travel comfortably in the lie-flat position in the lower carrycot whilst your inquisitive toddler takes in the exciting world facing forward in the upper seat unit. Once your new addition is ready to move into a seat unit, the carrycot converter fabric is easily removed or you may even be ready to use the pear in its single mode? A great investment from the outset knowing you can upgrade as your family grows.

Which mode are *you* in today?™

## pear

Whether you are expecting twins or your second child, the iCandy pear offers the ultimate in flexibility. With the addition of the multi-functional pip converter the iCandy pear is a unique, stylish modular travel system with many practical combinations for either twins or a newborn and older child. Available in stylish black, you can add colour with the addition of a luxury fleece footmuff, fleece core seat snuggle or a flavour pack.

This multi-mode tandem travel solution is so simple - large front wheels offer perfect stability, the multi-position seat units easily convert into carrycots using the carrycot converter fabrics and it has the great advantage of offering both rearward and forward facing seat units for both children.

*Growing* with your family...

## *accessories*

Our British designers love creating wonderful products to accessorize with your chosen stroller. Sumptuous fabrics, rich colours, carefully chosen zips and that perfect placement of each and every logo are where we pride ourselves in getting it just right. We have experience in knowing how many creams and bottles parents need to carry, and when the bitter cold sets in there's nothing more comforting to know that your baby is comfortable and warm in luxury fleece fabrics.

Our range of accessories include luxury fleece footmuffs for the colder months, fleece core seat snuggles for extra comfort, sun parasols to help protect from harmful rays, the all important car seat adaptors to add an infant carrier car seat, quality travel bags to help protect your stroller and carrycot whilst travelling, cup holders and beautiful stylish changing bags. All these are carefully selected to co-ordinate with each and every one of our products.
